Certifications

Python For Data Science & AI
IBM

Machine Learning With Python
IBM

Data Analysis With Python
IBM

Intro to Data Analysis Using Excel
IBM

Positions of Responsibility

IEEE CIS Student Chapter

Aug 26 - Present
Core Committee

Reverb'26 August-26 - Present
Finance Head

AI Club February-26 - Present
Tech Executive
Tech Team Member
October-24 - February-26

Protathlitis'26 March-26 - April-26
Finance Co-Head

Varsity Care Oct-24 - July-26
Finance Executive

Publications

PATENT-Webcam-Based Eye Gaze and Voice Controlled Mouse Interface System for Motor-Impaired Users
07/08/26

Engineered an accessible UI control system using computer vision and speech recognition to enable hands-free computer navigation.

Awards

4th Prize at Project Display Held during Industry Conclave 2026
AIML Department, SIT Pune

Volunteer-Symbitech'24

Summary

B.Tech student specializing in **Artificial Intelligence & Machine Learning (AIML)** with a strong interest in **Data Science, Data Analytics, and machine learning applications**. Proficient in **Python, C, and SQL**, with hands-on experience developing data-driven projects involving data preprocessing, analysis, visualization, and predictive modeling. Skilled in using data to identify patterns, extract meaningful insights, and support informed decision-making. Passionate about solving real-world problems through analytical thinking, programming, and practical application of AI and data science techniques.

Skills

🔧 **Technical Skills**

Python, C, SQL, MySQL

🔧 **Data Analytics**

Data Analysis, Excel, Pandas, NumPy, Data Visualization

🔧 **AI/ML**

Machine Learning, Scikit-learn, TensorFlow, NLP

🔧 **Tools**

Streamlit, GitHub, VS Code

🔧 **Professional**

Analytical Thinking, Problem Solving, Communication, Teamwork, Leadership, Adaptability, Attention to Detail

Education

Symbiosis Institute of Technology (SIT), Pune

August-24 to May-28(Expected)

B.Tech(AI ML) • 8.45

Experience

SCAAI-Symbiosis Centre for Applied AI

July 26 – Present

Research Intern

- Conducting research and exploring AI-based approaches to solve practical problems through hands-on analytical work.

Bluestock

May-26 - July-26

Data Analyst Intern

- Analysed datasets to identify trends and insights, applying data analysis and visualization techniques for data-driven decision-making.

XYlofy AI

June-26 - July-26

AI and Data Science Intern

- Worked on AI and data science projects involving data preprocessing, analysis, and machine learning using Python.

Google

August 25 - December 25

Google Student Ambassdor 2025

- Represented Google on campus through student outreach activities, developing communication, leadership, and presentation skills.

Projects

Nifty-100 Financial Intelligence

Built an end-to-end financial analytics platform integrating ETL, data analysis, ML-based clustering, stock screening, dashboards, and automated financial insights.

Mutual Fund Analytics & Risk Analysis System

Developed a financial analytics system covering ETL, fund performance analysis, risk modelling, SQL-based analysis, and interactive dashboards.

UIDAI Aadhaar Decision Intelligence System

Hackathon project that transforms UIDAI Aadhaar enrolment and update data into actionable insights using EDA anomaly detection and machine learning forecasting

RevenIQ

AI-powered revenue forecasting and budget optimization platform.

FlightWise-AI

FlightWise AI – An end-to-end machine learning platform that predicts flight delays and provides operational recovery insights using aviation analytics and XGBoost.

SmartProcure

SmartProcure AI predicts delivery delays and optimizes dispatch using ML powered logistics intelligence.
